

DR. ELIZABETH TANZI

WHY DID YOU BECOME A DERMATOLOGIST

Skin fascinates me

FAVORITE PART OF YOUR JOB

I like being on the cutting-edge of technology.

If there is a new device available, my office is always one of the first in the country to have it

BEST ADVICE YOU'VE RECEIVED

Never stop learning

WHAT FASCINATES YOU MOST ABOUT THE HUMAN BODY

The power of the mind over the body

PLACE YOU GO TO ESCAPE THE OFFICE

I like to take in a new art exhibit

FRAMED PHOTOS ON YOUR DESK

My husband

I START EACH DAY

By checking my e-mail

I'M NEVER WITHOUT

My watch

I WOULD LOVE TO OWN

A Rothko

"I don't believe in a one-size-fits-all treatment approach."

—ELIZABETH TANZI, MD

INSIDE INFORMATION

A NATURAL VISIONARY

When it comes to patients' results, "my philosophy is to keep it natural," says Dr. Tanzi. Because she is in the same demographic as many of her patients and has undergone many of the same procedures her patients ask about, she can speak candidly and honestly about the **RESULTS THEY CAN EXPECT**. "Many of my patients are like me and understand how important it is to project a **POSITIVE IMAGE**," she says. "I can identify with my patient population because I share the same concerns about aging." It also helps that the more advanced procedures used at the practice require **MINIMAL DOWNTIME**. "We're making it easier for professional women and men to come in, have the procedures, use the weekend as downtime, and then be back to work on Monday." Many of these patients are in their 30s to their 50s and simply want to **REDUCE THE SIGNS OF AGING**. "Basically," says Dr. Tanzi, "my patients want to look as good on the outside as they feel on the inside."
